PRANIT HARISH RAI

(773) 410-9941 • pranitrai07@gmail.com • linkedin.com/in/pranit-rai

EDUCATION

Northwestern University, Evanston, IL **Sep 2026 - Dec 2027**
M.S. Computer Science

Vellore Institute of Technology, Chennai, India **Sep 2021 - Aug 2025**
B.Tech Computer Science (Specialization in Cyber Physical Systems) | CGPA: 9.19/10

EXPERIENCE

Fidelity Investments **Aug 2025 - Aug 2026**
Associate Software Engineer, (Previously Executive Graduate Trainee, Aug–Oct 2025) *Bengaluru, India*

- Led backend development of **RetireX**, an enterprise-wide cloud governance platform built with Java Spring Boot for AWS resource discovery, dependency analysis, cost optimization, and approval-driven infrastructure decommissioning, supporting **1,500+ requests** during its inaugural enterprise demonstration.
- Designed secure cross-account AWS authentication for the **DataBuffet** platform, enabling one-click diagnostics and deployments across **50+ engineering teams and 150+ AWS accounts**.
- Developed an **AI-powered Jenkins pipeline summarization service** using Fidelity's enterprise LLM to analyze deployment logs and generate concise explanations of pipeline execution, failures, and infrastructure changes.

Fidelity Investments **Jan 2025 - Jun 2025**
Software Engineer Intern *Bengaluru, India*

- Improved Java Spring Boot service quality by increasing unit test coverage to **90%+**, remediating **1,200+ SonarQube code smells** across **8 critical REST APIs** and AWS Lambda functions, and strengthening API reliability.

Fidelity Investments **Jun 2024 - Jul 2024**
Software Engineer Summer Intern *Bengaluru, India*

- Built Python and AWS Snowflake ETL pipelines for processing unstructured customer concerns and Jira ticket data for governance analytics.

TECHNICAL SKILLS

Languages: Java • Python • C++ • JavaScript • Kotlin
Backend: Spring Boot • REST APIs
Machine Learning: PyTorch • OpenCV • Scikit-Learn
Cloud/DevOps: AWS • Docker • Kubernetes • Jenkins • Terraform
Databases: SQL • DynamoDB • Aurora • Snowflake
Tools: Git • Bruno • SonarQube
Competitive Programming: Codeforces Expert (Max. 1705) • LeetCode Knight (Max. 2074) • CodeChef 4★ (Max. 1985)

ACHIEVEMENTS

- Qualified for Round 2 of the **2024 Meta Hacker Cup**, ranking **1,339th** globally in Round 2.
- Meritorious Award (**Academic Rank 2/580 & 6/580**), Vellore Institute of Technology
- Presented "An Integrated Artificial Intelligence Enabled Approach for Thwarting Malpractice in an Online Examination Proctoring System" at **ICBAI 2023 & ORSI 2023**, IISc Bangalore.
- **Elite Top Coder**, Vellore Institute of Technology
- Participated in the **ICPC Asia Preliminary Contest** (2023, 2024).

PROJECTS

PharmaShield - 2nd Place, House of Developers Hackathon

- Contributed to backend development using Selenium for a prototype pharmaceutical supply-chain platform designed around blockchain-based drug traceability.

Forest Fire Detection

- Built an IoT-based wildfire prediction system using Arduino, OpenCV, Python, and Random Forest models for real-time fire-risk prediction.

CERTIFICATIONS

- AWS Certified Cloud Practitioner by Amazon Web Services (AWS)
- Application Development on Oracle Cloud by Oracle University
- E-Business by Indian Institute of Technology, Madras (IIT Madras) on NPTEL (SWAYAM)
